Thomas Wells, 2620 Martha St.

Sacramento Report

By CHARLES CHAPEL

Assemblyman, 46th District California Legislature

What We Need
Most of the cities in Los Angeles County, including the City of Los Angeles, and most of the cities within the 46th Assembly District, need the following:

(1) A civic auditorium; (2) A sports stadium; (3) Efficient mass, rapid transportation; (4) Hospitals, especially for emergency cases; (5) Off-street parking spaces; (6) Additional airport facilities, especially for private pilots; (7) Decent facilities for juvenile offenders while waiting trial and after sentence; (8) A new awakening to the importance of civil defense; (9) Extensions to the freeway system; (10) More and better public beaches and playgrounds; (11) The conversion of slums into decent housing through existing local laws and private enterprise; (12) The enforcement of the present laws and ordinances regarding smog; (13) The modernization of county and city charters to fit modern conditions; (14) The protection of existing sources of fresh water and the development of new sources; (15) Emphasizing the teaching of American history, the U.S. Constitution, the California State Constitution, and the principles of State and local government, as provided in the law of which I am the author; (16) The development of small-boat harbors about 30 miles apart along the Pacific Coast, for national defense, for recreation, and for stimulation to small businesses; (17) Major league baseball in the Los Angeles area, and last, but not least, (18) A continued war against narcotic peddlers.

Revised Pledge of Allegiance
You have read in various newspapers about the revised pledge of allegiance, but just to be sure that you do not forget it, here it is:

"I pledge allegiance to the flag of the United States of America and to the Republic for which it stands; one nation UNDER GOD, indivisible, with liberty and justice for all."

Senator Homer Ferguson, Republican, of Michigan, and Louis Rabaut, Democrat, member of Congress from Louisiana, were the authors of the bill which became a law recently when signed by President Eisenhower. Please notice that two words—"under God"—have been added.

Central Committee
In accordance with Section 2799, Elections Code, I have appointed one man and two women to the Republican State Central Committee of California who will go to Sacramento as delegates to the state convention and the meeting of the State Central Committee on Aug. 7 and 8. These appointees are Mrs. Clayton G. Thomas, 226 Ave. C, Redondo Beach; Mrs. Gordon F. Thruelsen, 8224 Belford Ave., Los Angeles 45 (Westchester), and John D. Meschuck, M.D., 455 Main St., El Segundo. Later, they will each announce the appointment of three alternate members.

Do You Want State Regulation of Ambulance Companies?
In general, I personally believe that we have too many laws already on the statute books of California, but from time to time the public demands additional laws for the protection of the people. Only a small portion of the City of Torrance lies within the 46th Assembly District, but I am glad to receive complaints from the citizens of Torrance and shall do what I can for them, even though most of that city is in the district represented by the Hon. Vincent Thomas.

People injured in Torrance have waited as long as 45 minutes for an ambulance to take them to the hospital. In one case, a 6-year-old child, injured in a traffic accident, had to lie in pain for one hour while waiting for an ambulance.

We are referring here principally to ambulances operated for hire by private companies for a profit and not to police ambulances. In some cities, the municipality guarantees payment for emergency calls, but I understand that Torrance does not do this, hence the private ambulance companies pass up a call from Torrance because they do not know whether the injured person or his family will pay for the trip or not.

The authority to sign contracts with private ambulance companies, subject are hereby invited to write to me and set forth in detail their suggestions and complaints. I promise that eventually every letter will be read by members of the Assembly Committee on Transportation and Commerce, I intend to hold hearings on this subject within the next few months. All citizens having opinions on this

scandalous situation now existing in the ambulance business. Playa del Rey Harbor Will Be Built My mail is flooded with inquiries about the harbor at Playa del Rey. Yes, repeat yes, the harbor will be built, I do not recommend that you buy or sell any particular lots in that area. If I knew which lots would go up in value, I would buy them myself, but I have no inside knowledge.

BANG UP FOOD BUYS FOR THE Fourth OF JULY WEEK-END
